THOMAS RIBOULET

I am a 28-year-old French magician. In 2021, I created with two friends the 3 Monkeys Publishing, a company that edit and publish magic books. Since then, we published 6 books in collaboration with artists from all over the world. We also won the “Invention of the Year” award in 2021 at the French magic championships in Troyes. Because I am often afraid of getting bored, I also create tricks for magicians like my invisible dice forcing, which is recognized worldwide.

SHADES

According to the dictionary, a shade represents each of the different tones of the same color. I think this definition can be applied to magic tricks and this is what I am going to address in this lecture. During this conference you will be able to discover the results of my thoughts, my ideas that I like to call “the shades of my mind”.

Specialized in card magic and mentalism, I will share with you some secrets that I have been keeping for years. In addition to some tricks reveal, I will talk about creativity, productivity, creative process, communication and marketing in the magic world.

Join me on a journey from my childhood and my first steps in magic until today!

THE LECTURE

The **SHADES** lecture is a selection of my best ideas and tips. I will explain in detail each of the card and mentalism routines shown, often defined by their simplicity and impossibility. You will be able to discover:

AN OLD MAN STORY : A routine in which the spectator's chosen card disappears from the deck and travels to an unexpected location.

DARK CONNECTION : Blindfolded, the magician finds, magically or by telepathy, the chosen card at the very moment the spectator thinks STOP. My favorite trick with which I have fooled many magicians around the world!

COLORED TRIUMPH : A surprising triumph routine. A simple card trick that is powerful and fooling.

INVISIBLE CHOICE : The concept that made me famous all over the world after having fooled the greatest like Peter Turner, Luca Volpe, John Carey and many others.

THE DOYLE PROCESS : A card trick and a concept that has been updated and that has fooled many a magician.

NAME IT : A routine that will show you how to turn a long and boring magic trick into an impressive miracle

BLACK MIRROR : A simple open prediction effect always with you.

NUMERUS : My personal version of the famous card any number routine. An acaan that has fooled some of the biggest names in magic like Etienne Pradier.

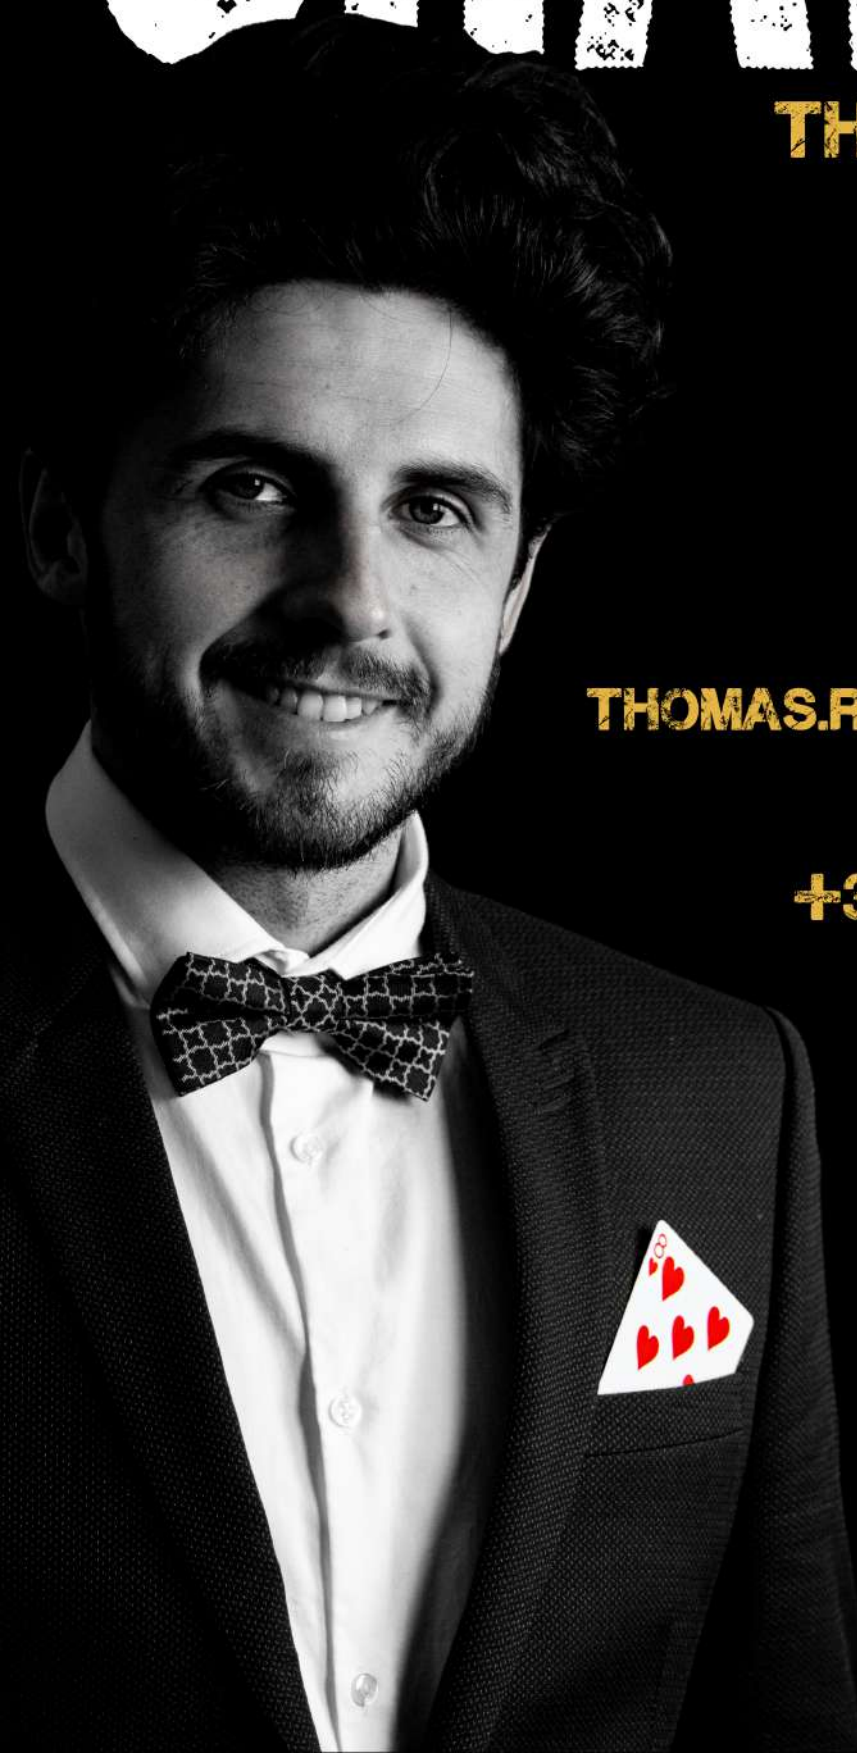

SHERLOCK'OIN : My very first gimmick sold more than 1000 times around the world. You will learn how to make a signed coin travel to find the chosen card.

And many other routines, ideas, theories, suggestions...
